TECHNICAL SKILLS

Front End | Angular, React, Javascript, TypeScript, NodeJS, CSS, User Experience Design

Back End | Django, Java, C, C++, Python, AWS, MySQL

Testing/Deployment | CI/CD, JUnit, Web and Application Servers

Developer Tools | Git, npm, DevOps, Postman, Agile Methodology, TDD

EXPERIENCE & PROJECTS

Web Development Intern | RR Donnelley

Jan 2023 - Present

Backend redesign and Angular integration, enhancing user engagement and performance. Javascript | AWS | Angular | MySQL

- Led the development and deployment of Windows services and web applications, meeting tight deadlines in a fast-paced environment.
- Skillfully used Angular, JavaScript, and SQL to create interactive web platforms, boosting user engagement and experience.
- Collaborated with cross-functional teams to improve website features and performance, ensuring quick load times and smooth interactions.

Software Engineering Intern, UI Lead | Western AgCredit

May 2022 - Jan 2023

Escrow data management web application

JavaScript | Angular | Entity | Git | MySQL

- Directed the intricate design and systematic development of web platforms using the Angular framework, resulting in a notable boost in user web traffic and improved online user engagement.
- Expertly managed the backend architecture of websites through the utilization of relational databases, ensuring swift and efficient data retrieval, thereby enhancing system responsiveness.
- Assumed a leadership role in orchestrating team scrum meetings, fostering enhanced collaboration, streamlining communication, and effectively increasing project delivery success rates.

Field Technician | Brooks Pest Control

Jan 2021 - Jan 2022

Pest control management, training, and documentation

- Created and developed detailed customer service, inventory, and application reports.
- Coordinated and developed detailed customer services with a team of technicians.
- Facilitated communication between customers and corporate offices.

Car Rental Website | Dans' Auto Shop

2023

Multi page car rental website

JavaScript | React | Django | Git | Jira

- Designed a front-end service for a car rental system, enabling management of inventory, employees, and services.
- Monitored user interactions within the application using React.
- Designed a RESTful API to efficiently manage and integrate with a custom Django database, improving data access and system functionality.

EDUCATION

Utah State University - Bachelor of Science, Computer Science

GPA: 3.66 Expected May 2024

Herriman High School - High School Diploma

June 2020
